WORKSHOPS

Tabletop Games with Andre!

Tuesdays Grades 2-6
with Andre Gorostiaga

Andre Gorostiaga is returning to Beeman for another workshop session! This time, he's bringing more than just chess. He'll be offering students other games, such as Yu-Gi-Oh, Uno, Stratego, and more! This 2-6 grade workshop will use strategy-based games to develop students' problem-solving skills and teamwork. We're super excited to see it!

Hi! My name is Andre Gorostiaga. I've been teaching chess to youth and adults since 2020. I first learned how the pieces moved as a kid by playing against my grandfather during a trip to Argentina. I'm fun and energetic, but can be disciplined when I need to be. Nothing makes me happier than making others laugh!

Typical Schedule for workshop days:

3:00-3:30 Welcome/Circle, Movement & Snack
3:30-5:00 Workshops
5:00-5:30 Gathering and Parent Pick Up

Our workshop leaders design the workshop experiences just for ELP students. Please sign up only if your child is interested, will be at ELP that day, and can stay for the whole workshop.

Thanks for helping us make these opportunities meaningful!

DEPARTMENT FOR
CHILDREN AND FAMILIES

A year in Review with Sarah Rougier

Students in ELP can use pictures of daily activities to create a "Memory Book" of their time at ELP. There will be specific pages with all-about-me assignments that have children share about themselves and what is important to them at this time in their growth and development.

Sarah Rougier holds an Early Education Teaching license with over 20 years of experience working with children. One of her favorite aspects of teaching is working directly with children on open-ended, child-led activities. Sarah lives in Monkton with her husband, daughter, and son. Sarah enjoys attending sports activities for her children during her free time.

Pop-Up Crafting Tuesdays Grades K-6 with Jamie Bergeron

Join Miss Jamie in our pop-up crafts as she shares her love of crafting with all students

Hello Everyone, my name is Jamie, and I am the school nurse at Beeman. I am currently working towards becoming a nurse practitioner! I have three kids, 3 dogs, and 1 calico cat. I love hanging out with all the students at Beeman, but I don't usually get the time because I'm busy taking care of them. My daughter Izzy and I love to craft, and I am excited to bring that love to the students at ELP.

Community Sailing Center Sailing Field Trip

ELP will be taking an all-district field trip to the Lake Champlain Community Sailing Center Floating Classroom on our May 6th Early Release Day. Participants in grades 3-6 can take part in a two-hour sailing program on Lake Champlain, where they split their time between hands-on STEM activities on land and sailing on keelboats with an instructor. Space is limited so be sure to let your site director know if you are interested!

Adopt a Cow

Mondays Grades K-2
Wednesdays Grades 3-6

MILO Bus

Fridays Grades K-6
with Jodi Pierce

Science on the Move! Get ready for a thrilling journey of discovery with science teacher Jodi Pierce aboard MILO (My Innovative Learning Opportunities), the traveling maker space bus!

Jodi's catchphrases for this year are, "Just call me Ms. Jedi Frizzle!" & "Science is Magic that works." A passionate STEM Educator, Jodi is thrilled to travel with MILO to schools sharing her fascination with the world. Her lessons are fun, dynamic, and designed to encourage students to ask questions, think critically, and solve problems.
